manipulation leads him to incorrect arguments about the normalization of the instrumental resolution function.

In conclusion we contradict Tindle's statements about the normalization; it is clear that the formulation presented by Dorner (1972) is correct.

In formulating this short note I benefitted from profound discussions with my colleagues A. Freund and R. Pynn.

International Union of Crystallography

Prices of Acta Crystallographica and Journal of Applied Crystallography

The Executive Committee of the International Union of Crystallography is pleased that it has not been necessary to increase the regular-price subscription rates and the prices of back numbers for Acta Crystallographica and Journal of Applied Crystallography as from 1 January 1985.

The subscription rates for personal copies of Acta Crystallographica have been increased slightly.

Acta Crystallographica

The following rates will apply for Volumes A41, B41 and C41 (1985). Note that, except as single parts, Sections B and C are only available together. All subscription rates are fixed in Danish kroner, and the US dollar equivalents given below are subject to exchange-rate fluctuations and amendment without notice.

Complete volumes, regular price per volume

Sections A, B & C (combined subscription) Dkr 5250 ($571)

Section A only Dkr 1275 ($139)

Sections B & C (combined subscription) Dkr 4200 ($457)

Complete volumes, reduced price for individuals

Sections A, B & C (combined subscription) Dkr 1450 ($158)

Section A only Dkr 350 ($38)

Sections B & C (combined subscription) Dkr 1200 ($130)

All subscribers in the USA and Canada should add to the above subscription rates the additional charges for airfreighting as mentioned below.

The reduced-rate subscriptions are ordinarily only available to members of recognized scientific societies, and applications must be accompanied by a written undertaking that the journal is for the personal use of the subscriber and will not be made available to libraries, institutions, etc.
These conditions also apply to persons wishing to order back numbers at the reduced rates.

**Single parts**

The prices of single parts are as follows:

- **Vol. A 41** Dkr 320 ($35)
- **Vol. B 41** Dkr 320 ($35)
- **Vol. C 41** Dkr 320 ($35)

**Journal of Applied Crystallography**

The following rates will apply for Volume 18 (1985). All subscription rates are fixed in Danish kroner, and the US dollar equivalents given below are subject to exchange-rate fluctuations and amendment without notice.

**Complete volumes, regular price per volume**

- **Dkr 1275 ($139)**

**Complete volumes, reduced price for individuals**

- **Dkr 400 ($43)**

All the subscribers in the USA and Canada should add to the above subscription rates the additional charge for airfreighting as mentioned below. The same conditions apply to reduced-rate subscriptions as in the case of Acta Crystallographica (see above).

**Single parts**

The price for single parts of Volume 18 (1985) is Dkr 320 ($35).

**Airfreighting of copies to the USA and Canada**

Deliveries of Acta Crystallographica and Journal of Applied Crystallography to the USA and Canada in 1985 will continue to be by air freight to New York and thence by second class mail. The use of this service is obligatory for all subscribers in those countries. The charges in Danish kroner are as given below.

**Acta Crystallographica**

- Sections A, B & C (combined subscription): Add Dkr 380 ($41)
- Section A only: Add Dkr 90 ($10)
- Sections B & C (combined subscription): Add Dkr 290 ($32)

Add Dkr 70 ($8)

Since the charges are fixed in Danish kroner, the US dollar equivalents are subject to exchange-rate fluctuations.

**Prices of back numbers**

In response to requests, back volumes of Section B and Section C may be purchased separately. All these prices are fixed in Danish kroner and the US dollar equivalents given below are subject to exchange-rate fluctuations.
