

NSF Improving Undergraduate STEM Education (IUSE) for Hispanic-Serving Institutions (HSI)

Talitha Washington, Program Director, Division of Undergraduate Education, National Science Foundation. Dr. Washington will discuss details about the new HSI Program at NSF, including how it is designed to further expand NSF's goals, how well their first HSI program solicitation was received, what the status is of the NSF-funded HSI conferences, and their contributions to the development of the HSI program. NSF's overall HSI Program vision for providing the resources, strategies, and funding to enhance HSI participation, and next steps, will also be shared.
