Structure cristalline du tétramolybdate de thallium(I), $Tl_2Mo_4O_{13}$: erratum. Par PAUL TOLÉDANO et MARCEL TOUBOUL, *Laboratoire de Chimie Structurale des Matériaux, Université Pierre et Marie Curie, Bâtiment F, 4 place Jussieu, 75230 Paris CEDEX 05, France*

(Reçu le 29 janvier 1979)

Abstract

A printer's error is corrected. In the paper by Tolédano & Touboul [*Acta Cryst.* (1978). B34, 3547–3551] the beginning of the third paragraph of the *Discussion*, on p. 3550, should read: 'La structure de $Tl_2Mo_4O_{13}$, est d'un type nouveau,

différente comme on l'a vu de celle de $K_2Mo_4O_{13}$ mais également de celle des trois variétés allotropiques de $Li_2Mo_4O_{13}$ (Gatehouse, Lloyd & Miskin, 1972; Gatehouse & Miskin, 1975a).'

Le résumé contient tous les détails pertinents.

Dimensions of Material Deposited under the Supplementary Publication Scheme

The specification of the dimensions of material for deposit, given in *Notes for Authors* [*Acta Cryst.* (1978). A34, 149], has led to some confusion. In future, the dimensions of all text and tables intended for deposit should not exceed the dimensions of the A4 International Paper Size (210 × 297 mm), although the paper size may be greater. In the case of graphical material, under exceptional circumstances illustrations of greater dimensions (up to 390 × 285 mm) may be acceptable.

Acta Crystallographica, Section A. Defects in the binding of many copies of the Supplement have delayed its publication considerably. Although the Supplement is numbered Part S4 of Volume A34 and is dated 1 August 1978, the copies were not received from Poland by Munksgaard for distribution to subscribers until 15 January 1979. One copy of the Supplement has now been sent to every subscriber to the Union's journals, whether they subscribe to one or both journals. The Union regrets any inconvenience caused by the delay in publication of the Supplement.

Eleventh International Congress of Crystallography Communicated Abstracts Supplement to *Acta Crystallographica*

The abstracts of papers communicated to the Eleventh International Congress of Crystallography, Warsaw, Poland, 3–12 August 1978, have been published as a Supplement to

Volume 43A of *Structure Reports* has recently been published. It covers the literature for metals and inorganic compounds for 1977 and costs 97.75 Netherlands guilders for subscribers with standing orders. The full price of the volume is 115 Netherlands guilders but personal subscribers may buy a copy for their own use at 57.50 guilders.

Orders for this publication may be placed direct with Bohn, Scheltema & Holkema, PO Box 23, 7400 GA Deventer, The Netherlands, with Polycrystal Book Service, PO Box 11567, Pittsburgh, PA 15238, USA, or with any bookseller.
