

Notes for Authors

Workshop on new algorithms in X-ray crystallography and electron microscopy

1. Submission

Authors should submit their paper *via the web* at <http://journals.iucr.org/d/services/conferenceproceedings.html>. Papers are expected to be submitted by the end of the meeting on 17 May 2008.

2. Manuscript preparation

2.1. File formats

The manuscript should be prepared using Word, \TeX or \LaTeX . Authors are encouraged to use the templates available from the Editorial Office by e-mail (med@iucr.org), by ftp (from the 'templates' directory at <ftp://ftp.iucr.org>) or on the WWW at <http://journals.iucr.org/d/services/authorservices.html> where full instructions are given.

Figures should be prepared in PostScript, encapsulated PostScript or TIFF formats. The resolution of bitmap graphics should be a minimum of 600 d.p.i.

For submission, the text and figures should be provided as a single Word/RTF, PostScript or PDF file. Once the paper is accepted separate source files for the text and figures should be uploaded at the URL provided by the Co-editor.

2.2. General

Contributions will be published as full-length papers and should not exceed eight journal pages (~8000 words). The paper should conform to the general editorial style of *Acta Crystallographica Section D*.

2.3. Title and authors

The title should be short and informative. The contact author should provide an e-mail address and a fax number. The e-mail address will be used for editorial communications and despatch of electronic proofs and reprints.

2.4. Abstract and synopsis

All contributions must be preceded by an *Abstract* in English. The *Abstract* should be no more than 200 words and it should make no reference to tables, diagrams or formulae contained in the body of the paper. Literature references in the *Abstract* are discouraged but if a reference is unavoidable it should be sufficiently full within the *Abstract*

for unambiguous identification, e.g. [Jones (2001). *Acta Cryst.* **D57**, 1–10].

Authors should supply a synopsis of no more than two sentences for inclusion in the contents listing of the journal.

2.5. Units

The International System of Units (SI) is used except that the ångström (symbol Å, defined as 10^{-10} m) is generally preferred to the nanometre (nm) or picometre (pm) as the appropriate unit of length. Recommended prefixes of decimal multiples should be used rather than '× 10ⁿ'.

2.6. Figures

Figures should be prepared using one of the file formats listed in §2.1.

2.7. Tables

Tables which are produced in Word should be prepared using the Word table editor.

2.8. Mathematics

Displayed mathematical equations which are produced in Word should be prepared using the Word equation editor.

2.9. Multimedia

Multimedia additions to a paper are welcomed and will be made available *via Biological Crystallography Online*. Please contact the Editorial Office for submission details.

2.10. References

References to published work must be indicated by giving the authors' names followed immediately by the year of publication, e.g. Neder & Schulz (1998) or (Neder & Schulz, 1998). Where there are three or more authors the reference in the text should be indicated in the form Smith *et al.* (1998) or (Smith *et al.*, 1998) *etc.* All authors should be included in a full list at the end of the paper. This list should be arranged alphabetically and conform with the following style:

Andrews, M. D., Wright, H. E. & Clarke, S. A. (2007). In preparation.

Brünger, A. T. (1992). *X-PLOR. Version 3.1. A System for X-ray Crystallography and NMR*. Yale University, Connecticut, USA.

Collaborative Computational Project, Number 4 (1994). *Acta Cryst.* **D50**, 760–763.

Crowther, R. A. (1972). *The Molecular Replacement Method*, edited by M. G. Rossmann, pp. 173–178. New York: Gordon and Breach.

International Union of Crystallography (2008). (*IUCr*) *Biological Crystallography Online*, <http://journals.iucr.org/d/journalhomepage.html>.

Note that **inclusive** page numbers must be given.

3. Copyright

Except as required otherwise by national laws, an author must sign and submit a copy of the Transfer of Copyright Agreement form for each manuscript before it can be accepted. The completed form should be sent by fax or mail to the Managing Editor whose contact details are given in §5.

4. Crystallography Journals Online

All IUCr journals are available on the web *via Crystallography Journals Online* (<http://journals.iucr.org>). Full details of author services can be found at <http://journals.iucr.org/d/services/authorservices.html>. CCP4 Study Weekend articles will be published online as soon as they are ready.

4.1. Reprints

After publication the correspondence author will be able to download the electronic reprint of the published article, free of charge. Authors will also be able to order printed reprints at the proof stage.

5. Contact information

Papers accepted for publication will be technically edited at the IUCr Editorial Office in Chester. Contact details for this office are as follows:

The Managing Editor
International Union of Crystallography
5 Abbey Square
Chester CH1 2HU, UK
Telephone: 44 1244 342878
FAX: 44 1244 314888
E-mail: med@iucr.org
ftp: <ftp://ftp.iucr.org>

International Union of Crystallography Transfer of Copyright Agreement

Title of Article (*Please type or use capital letters*)

.....
.....

Authors (*Please type or use capital letters*)

.....
.....

Copyright to the above article is hereby transferred (except as otherwise required by national laws[†]) to the International Union of Crystallography (IUCr), effective if and when the article is accepted for publication in *Acta Crystallographica*, *Journal of Applied Crystallography* or *Journal of Synchrotron Radiation*. In addition to reproduction in conventional printed form your article will be stored electronically. Your assignment of Copyright signifies your agreement to the journal making arrangements to include your paper in document delivery services, CD-ROMs and electronic databases, etc., worldwide. This transfer of copyright also applies to data submitted in machine-readable form. However, the authors reserve the following:

- (1) All proprietary rights other than copyright, such as patent rights.
- (2) The right to use all or part of this article in future works prepared by or on the behalf of the author.
- (3) In the case of 'work for hire', the right of the employer to incorporate all or part of this article in future works.
- (4) The royalty-free right of the employer to make copies of this article, without further permission, for his or her own use but not for resale. Any identification or notice appearing on the pages to be reproduced must not be deleted.

This Transfer of Copyright Agreement must be signed by at least one of the authors (who agrees to inform the others, if any) and, as appropriate, by the employer (in the case of 'work for hire').

By signing this form you certify that your contribution is your original work, has not been published before (in any language or medium) and is not being considered for publication elsewhere; that you have obtained permission for and acknowledged the source of any excerpts from other copyright works; that to the best of your knowledge your paper contains no statements which are libellous, unlawful or in any way actionable; and, in the case of a multi-authored contribution, that you have obtained copyright assignment from all Co-authors and authorisation to enter this agreement on their behalf.

The signed statement must be received by the IUCr before the article can be accepted for publication. Requests for further information should be sent to the Executive Secretary of the Union.

[†] In this case please give further details overleaf.

For use of the International Union of Crystallography only.
