

Notes for Authors

Proceedings of the workshop towards an integrated software toolkit for integrative structural biology

1. Submission

Authors should submit their articles *via the web* at <http://journals.iucr.org/d/services/specialissues.html>. Articles should be submitted before the end of the meeting.

2. Manuscript preparation

2.1. File formats

The manuscript should be prepared using Word, T_EX or L^AT_EX. Authors are encouraged to use the templates available from <http://journals.iucr.org/d/services/authorservices.html> where full instructions are given.

Figures should be prepared in PostScript, encapsulated PostScript or TIFF formats. The resolution of bitmap graphics should be a minimum of 600 d.p.i.

Details of the files needed for submission can be found at <http://journals.iucr.org/d/services/submitinstructions.html>.

2.2. General

Contributions will be published as full-length papers and should not exceed six journal pages (~6000 words). The paper should conform to the general editorial style of *Acta Crystallographica Section D*.

2.3. Title and authors

The title should be short and informative. The contact author should provide an e-mail address and a fax number. The e-mail address will be used for editorial communications and despatch of electronic proofs and reprints.

2.4. Abstract and synopsis

All contributions must be preceded by an *Abstract* in English. The *Abstract* should be no more than 200 words and it should make no reference to tables, diagrams or formulae contained in the body of the paper. Literature references in the *Abstract* are discouraged but if a reference is unavoidable it should be sufficiently full within the *Abstract* for unambiguous identification, e.g. [Jones (2001). *Acta Cryst. D*57, 1–10].

Authors should supply a synopsis of no more than two sentences for inclusion in the contents listing of the journal.

2.5. Units

The International System of Units (SI) is used except that the ångström (symbol Å, defined as 10⁻¹⁰ m) is generally preferred to the nanometre (nm) or picometre (pm) as the appropriate unit of length. Recommended prefixes of decimal multiples should be used rather than '× 10ⁿ'.

2.6. Figures

Figures should be prepared using one of the file formats listed in §2.1.

2.7. Tables

Tables which are produced in Word should be prepared using the Word table editor.

2.8. Mathematics

Displayed mathematical equations which are produced in Word should be prepared using the Word equation editor.

2.9. Multimedia

Multimedia additions to a paper are welcomed and will be made available *via Biological Crystallography Online*. Please contact the Editorial Office for submission details.

2.10. References

References to published work must be indicated by giving the authors' names followed immediately by the year of publication, e.g. Neder & Schulz (1998) or (Neder & Schulz, 1998). Where there are three or more authors the reference in the text should be indicated in the form Smith *et al.* (1998) or (Smith *et al.*, 1998) *etc.* All authors should be included in a full list at the end of the paper. This list should be arranged alphabetically and conform with the following style:

Andrews, M. D., Wright, H. E. & Clarke, S. A. (2012). In preparation.

Brünger, A. T. (1992). *X-PLOR. Version 3.1. A System for X-ray Crystallography and NMR*. Yale University, Connecticut, USA.

Crowther, R. A. (1972). *The Molecular Replacement Method*, edited by M. G. Rossmann, pp. 173–178. New York: Gordon and Breach.

International Union of Crystallography (2012). *(IUCr) Structure Reports Online*, <http://journals.iucr.org/e/journalhomepage.html>.

Winn, M. D., Ballard, C. C., Cowtan, K. D., Dodson, E. J., Emsley, P., Evans, P. R., Keegan, R. M., Krissinel, E. B., Leslie, A. G. W., McCoy, A., McNicholas, S. J., Murshudov, G. N., Pannu, N. S., Potterton, E. A., Powell, H. R., Read, R. J., Vagin, A. & Wilson, K. S. (2011). *Acta Cryst. D*67, 235–242.

Note that all authors and **inclusive** page numbers must be given.

3. Crystallography Journals Online

All IUCr journals are available on the web *via Crystallography Journals Online* (<http://journals.iucr.org>). Full details of author services can be found at <http://journals.iucr.org/d/services/authorservices.html>. CCP4 Study Weekend articles will be published online as soon as they are ready.

3.1. Reprints

After publication the correspondence author will be able to download the electronic reprint of the published article, free of charge. Authors will also be able to order printed reprints at the proof stage.

4. Contact information

Papers accepted for publication will be technically edited at the IUCr Editorial Office in Chester. Contact details for this office are as follows:

The Managing Editor
International Union of Crystallography
5 Abbey Square
Chester CH1 2HU, UK
Telephone: 44 1244 342878
FAX: 44 1244 314888
E-mail: med@iucr.org
<ftp://ftp.iucr.org>
WWW: <http://journals.iucr.org>
