Vols. A24-A34 Dkr 515 ($101.00)

Vols 1-23 Dkr 515 ($101.00)

Acta Crystallographica

fluctuations.

Complete volumes, regular price per

volumes to be

subject to exchange-rate fluctuations.

Prices of back numbers

subject to exchange-rate fluctuations.

The prices of back numbers have been increased so that they are the same as the subscription rates for the volumes to be published in 1979. The prices of Vols. 1–23 of Acta Crystallographica, which were published before the journal was divided into two sections, have been increased to the same price as the A volumes. The prices are fixed in Danish kroner and the US dollar equivalents are subject to exchange-rate fluctuations.

Acta Crystallographica

Complete volumes, regular price per

volume

Vols. 24–34 Dkr 2060 ($404.00)

Vols. A24–A34 Dkr 515 ($101.00)

Vols. B24–B34 Dkr 1735 ($340.00)

Complete volumes, reduced price for

individuals

Vols. 24–34 Dkr 850 ($167.00)

Vols. A24–A34 Dkr 215 ($ 42.00)

Vols. B24–B34 Dkr 720 ($141.00)

Single parts

The price for single parts of Volume 12 (1979) is

Dkr 125 ($25.00)

The prices of single parts are follows:

Vols. A24–A34 Dkr 130 ($ 26.00)

Vols. B24–B34 Dkr 215 ($ 40.00)

Single parts of Volumes 1–23 are not available.

Cumulative Indexes, regular price

Vols. 11–23 (1958–1967) Dkr 120 ($ 24.00)

Cumulative Indexes, reduced price for

individuals

Vols. 11–23 (1958–1967) Dkr 50 ($ 10.00)

Vols. 24–28 (1968–1972) Dkr 50 ($ 10.00)

A few copies of the cumulative index for

Volumes 1–10 (1948–1957) are also available, free of charge.

Journal of Applied Crystallography

Complete volumes, regular price per

volume

Vols. 1–11 Dkr 500 ($ 98.00)

Complete volumes, reduced prices for

individuals

Vols. 1–11 Dkr 245 ($ 48.00)

Orders

Orders for Acta Crystallographica and

Journal of Applied Crystallography may be addresses to Munksgaard International Publishers Ltd., 35 Nørre Søegade, DK-1370 Copenhagen K, Denmark. Orders from subscribers in North America may alternatively be placed through Polycrystal Book Service, PO Box 11567, Pittsburgh, Pa. 15238, USA.

Single parts

The price of single parts is as follows:

Vols. 1–11 Dkr 125 ($ 25.00)

Notes and News

Announcements and other items of crystallographic interest will be published under this heading at the discretion of the Editorial Board. The notes (in duplicate) should be sent to the Executive Secretary of the International Union of Crystallography (J. N. King, International Union of Crystallography, 13 White Friars, Chester CH1 1NZ, England).

The Warren Award

The Fourth Bertram Eugene Warren Diffraction Physics Award will be presented at the meeting of the American Crystallographic Association in Boston, Massachusetts in August, 1979.

This award was established by students and friends of Professor Warren on the occasion of his retirement from the Massachusetts Institute of Technology. It is to be given for an important recent contribution to the physics of solids or liquids using X-ray, neutron, or electron diffraction techniques. This includes work such as elastic or inelastic scattering studies of imperfections in crystals, or studies of liquids or amorphous materials, or developments in diffraction theory appropriate to such problems, to give a few examples; it does not include crystal structure determinations. Work that is to be eligible for this award must have been published between 1 July 1972 and 30 June 1978. There are no restrictions as to age, experience, or nationality of recipients. The award consists of a certificate and $1000 and is to be given every three years.

The following committee has been appointed to select the 1979 award recipient: D. Chipman, S. Cargill, and J. B. Cohen, Chairman.

The selection committee will welcome suggestions for possible recipients by 1 January 1979 from any interested persons. Suggestions should be addressed to Professor J. B. Cohen, Department of Materials Science and Engineering, The Technological Institute, Northwestern University, Evanston, Illinois 60201, USA.

Book Reviews

Works intended for notice in this column should be sent directly to the Book-Review Editor (J. H. Robertson, School of Chemistry, University of Leeds, Leeds LS2 9JT, England). As far as practicable books will be reviewed in a country different from that of publication.

This book contains a thorough introduction to diffraction methods by means of X-rays, neutrons, and electrons. It is written for students in the senior or first grad-
