### Prices of *Acta Crystallographica* and *Journal of Applied Crystallography*

The Executive Committee of the International Union of Crystallography is pleased that it has not been necessary to increase the regular-price subscription rates and the prices of back numbers for *Acta Crystallographica* and *Journal of Applied Crystallography* as from 1 January 1985. The subscription rates for personal copies of *Acta Crystallographica* have been increased slightly.

#### *Acta Crystallographica*

The following rates will apply for volumes A41, B41 and C41 (1985). Note that, except as single parts, Sections B and C are only available together. All subscription rates are fixed in Danish kroner, and the US dollar equivalents given below are subject to exchange-rate fluctuations and amendment without notice.

#### *Complete volumes, regular price per volume*

Sections B & C (combined subscription)	Dkr 4200	(\$457)

#### *Complete volumes, reduced price for individuals*

Sections A, B & C (combined subscriptions)	Dkr 1450	(\$158)
Section A only	Dkr 350	(\$38)
Sections B & C (combined subscription)	Dkr 1200	(\$130)

All subscribers in the USA and Canada should add to the above subscription rates the additional charges for air-freighting as mentioned below.

The reduced-rate subscriptions are ordinarily only available to members of recognized scientific societies, and applications must be accompanied by a written undertaking that the journal is for the personal use of the subscriber and will not be made available to libraries, institutions, etc. These conditions also apply to persons wishing to order back numbers at the reduced rates.

#### **Airfreighting of copies to the USA and Canada**

Deliveries of *Acta Crystallographica* and *Journal of Applied Crystallography* to the USA and Canada in 1985 will continue to be air-freight to New York and thence by second class mail. The use of this service is obligatory for all subscribers in those countries. The charges in Danish kroner are as given below.

#### *Acta Crystallographica*

Sections A, B & C (combined subscription)	Add Dkr 380	(\$41)
Section A only	Add Dkr 90	(\$10)
Sections B and C (combined subscription)	Add Dkr 290	(\$32)

#### *Journal of Applied Crystallography*

Add Dkr 70 (\$8)

Since the charges are fixed in Danish kroner, the US dollar equivalents are subject to exchange-rate fluctuations.

#### Prices of back numbers

In response to requests, back volumes of Section B and Section C may be purchased separately.

**Books Received**

*The following books have been received by the Editor. Brief and generally uncritical notices are given of works of marginal crystallographic interest; occasionally a book of fundamental interest is included under this heading because of difficulty in finding a suitable reviewer without great delay.*

**Modern crystallography. Vol. III. Crystal growth.** By A. A. Chernov, with contributions by E. I. Givargizov, K. S. Bagdasarov, V. A. Kuznetsov, L. N. Demianets and A. N. Lobachev. Pp. 20 + 517. Berlin: Springer Verlag, 1984. Price DM 154.00, £46.20.

This book, just published, is the English language version of Vol III of the four-volume work on modern crystallography by a large group of Russian authors, whose Editor-in-Chief is Professor Boris Vainshtein. The English volumes tend to follow their Russian language counterparts with a time lag of about two years. In this case the Russian volume III came out in 1982 and a review of it has already been published [Auleytner (1983). *Acta Cryst.* **A39**, 272].

To the original review, the comment may be added that the authors have again taken advantage of the two-year delay due to translation and resetting, by modifying the text and figures here and there, adding extra references, and so on, making the English version rather more than a mere translation but almost a re-editing of the Russian text. As with the previous two volumes, this one, although more specialized (dealing in great detail with crystal growth) is certain to be well received.
