World Directory of Crystallographers

Fifth Edition

Biographical data for the Fifth Edition of the *World Directory of Crystallographers* are now being compiled in many countries. Each crystallographer in the countries listed below should have received a *Data Input Form* for him to complete from his national Sub-Editor: any crystallographer who has not received a *Data Input Form* should request one from his Sub-Editor. Efforts are being made to contact crystallographers in all other countries: if not reached by 1 August 1976, they should write directly to the General Editor, Dr S. C. Abrahams, Bell Laboratories, Murray Hill, New Jersey 07974, U.S.A. Scientists with crystallographic colleagues in countries without Sub-Editors are requested to bring this notice to their attention.

The Fifth Edition of the *World Directory of Crystallographers* will be produced by computer-controlled photo-composition from punched cards prepared by the Sub-Editors. The resulting book is expected to be published by mid-1977, and to compare favourably with the Fourth Edition in appearance but at a substantially lower cost.

International Union of Crystallography

International Tables for X-ray Crystallography

The Executive Committee of the International Union of Crystallography has found it necessary to increase the prices of the four volumes of the present series, which are published for the Union by The Kynoch Press. Volumes I, II and III will now cost £9.50 per volume whilst Volume IV, which was published in September 1974, will cost £11.50. Orders may be placed direct with The Kynoch Press, Witton, Birmingham B6 7BA, England, with Poly-

crystal Book Service, P.O. Box 11567, Pittsburgh, Pa. 15238, U.S.A., or with any bookseller.

Preferential prices for *bona fide* crystallographers, who must give a written undertaking when purchasing a volume that it is for their own use only, have been increased to £5.00 for Volumes I, II and III and £7.00 for Volume IV. Orders for volumes at preferential prices must be sent direct to The Kynoch Press or Polycrystal Book Service, from whom prospectuses are obtainable. All prices include postage.

Notes and News

Announcements and other items of crystallographic interest will be published under this heading at the discretion of the Editorial Board. The notes (in duplicate) should be sent to the Executive Secretary of the International Union of Crystallography (J. N. King, International Union of Crystallography, 13 White Friars, Chester CH1 1NZ, England).

ACA Special Interest Group on Small-Angle Scattering

This Special Interest Group of the American Crystallographic Association has been established with the following Board of Directors: H. Brumberger (Chairman), P. Geil, R. W. Hendricks, P. W. Schmidt, B. P. Schoenborn, L. B. Shaffer. Enquiries about the Group should be directed to

Dr H. Brumberger, Department of Chemistry, Syracuse University, Syracuse, New York 13210, U.S.A.

A two-session symposium on small-angle scattering will be held at the next meeting of the ACA to be held at Evanston 8-13 August 1976 (for details see the Calendar of Events section in *J. Appl. Cryst.*). The invited papers being presented will be on neutron diffraction analysis of oriented lipid bilayers (B. P. Schoenborn) and small-angle diffraction at the Stanford Synchrotron Radiation Project (R. M. Stroud).
