A corrigendum to the paper by Meents *et al.* (2008), *Acta Cryst.* **B64**, 42–49 to correct the nomenclature for CL-20.

---

The chemical name for CL-20 was given incorrectly in Meents *et al.* (2008). The correct name is 2,4,6,8,10,12-hexanitro-2,4,6,8,10,12-hexaazaisowurtzitane (common name) or 2,4,6,8,10,12-hexanitro-2,4,6,8,10,12-hexaazatetracyclo[5.5.0.0<sup>5,9</sup>.0<sup>3,11</sup>]dodecane (systematic name).
