An additional acknowledgement is published for the article by Do *et al.* [(2012) *Acta Cryst. F* **68**, 806–809].

In the article by Do *et al.* (2012) the authors inadvertently omitted to acknowledge that James Raymond, University of Nevada, Las Vegas, isolated *Flavobacterium frigidum* PS1 and helped to sequence the FfIBP gene. The gene is described in Raymond & Kim (2012).
