Notes and News

Announcements and other items of crystallographic interest will be published under this heading at the discretion of the Editorial Board. The notes (in duplicate) should be sent to the General Secretary of the International Union of Crystallography (G. Boom, Department of Metallurgy, University of Oxford, Parks Road, Oxford, England). Publication of an item in a particular issue cannot be guaranteed unless the draft is received 8 weeks before the date of publication.

International Conference on Electrophotography

Papers are invited for an international conference on electrophotography, including such topics as photoconduction, triboelectricity, charge transfer, corona discharges, image evaluation, and unconventional electrophotographic processes. The emphasis is on fundamental and applied science rather than on commercial aspects. The programme will begin on the evening of 3 September and end on the afternoon of 6 September 1968. Titles and 250-word abstracts should be sent to

International Conference on Electrophotography,
 Institute of Optics,
 University of Rochester,
 ROCHESTER, New York 14627,
 U.S.A.

before 1 June 1968. Further information can be obtained from the same address; the final programme will be published in July.

International Union of Crystallography

International Tables for X-ray Crystallography

The Executive Committee of the International Union of Crystallography announces that from 1 April 1968 the price of each of the three Volumes of *International Tables for X-ray Crystallography* will be revised to £6.10s. The preferential price for *bona fide* crystallographers, who must give an undertaking when purchasing that the volume is for their *personal use only*, will be £3.15s. per volume. For prospectus and order forms write to the publishers, The Kynoch Press, Witton, Birmingham 6, England.

Volume II (*Mathematical Tables*) has just been reprinted with corrections. Stocks are available both of this and of Volume I (*Symmetry Groups*). Volume III (*Physical and Chemical Tables*) is being reprinted and will be available again shortly.

It is regretted that these slight price rises have occurred. They are due to the need to meet the costs of reprinting and increased distribution charges.
