Crystallographers

This section is intended to be a series of short
paragraphs dealing with the activities of crys-
tallographers, such as their changes of posi-
tion, promotions, assumption of significant new
duties, honours, etc. Items for inclusion, sub-
ject to the approval of the Editorial Board,
should be sent to the Executive Secretary of
the International Union of Crystallography (J. N.
King, International Union of Crystallography,
13 White Friars, Chester CH1 1NZ, England).

Katherine Harker, best known to crys-
tallographers through her collaborative work
with her husband, Dr David Har-
ker, and most recently for her work with
him in translation of the Fedrov vol-
ume on Symmetry of Crystals, died on
Sunday, 29 July 1973. For the past
several years, the Harkers have been at
the Roswell Park Memorial Institute,
Buffalo, New York.

Professor J. B. Cohen has become
chairman of the Department of Materials
Science at Northwestern University,
Evanston, Illinois, U.S.A.

Professor Dorothy Hodgkin is a mem-
er of the Council for Science and
Society, recently formed in the United
Kingdom.

International Union of
Crystallography

Acta Crystallographica
Journal of
Applied Crystallography
Airfreighting of copies
to the U.S.A. and Canada

The airfreighting service introduced in
1973 will be continued and is obligatory
for all subscribers in the U.S.A. and
Canada. The additional charges for this
service are as follows:

Acta Crystallographica
Sections A & B
(combined
subscription) Add D.Kr. 70 ($12.50)
Section A only Add D.Kr. 20 ($ 3.50)
Section B only Add D.Kr. 50 ($ 9.00)

Journal of Applied Crystallography
Add D.Kr. 20 ($ 3.50)

These charges are fixed in Danish kroner. The U.S. dollar equivalents are subject to exchange rate fluctuations.

Acta Crystallographica

The Executive Committee of the Inter-
national Union of Crystallography has
found it necessary to increase the yearly
subscription rates for Acta Crystallo-
graphica as from 1 January 1974. The
following rates will apply for Volumes
A30 and B30 (1974). All subscription
rates are fixed in Danish kroner, and the
U.S. dollar equivalents given below are subject to exchange rate fluctuations.

Complete volumes, regular price per
volume
Sections A & B
(combined
subscription) D.Kr. 1160 ($205.00)
Section A only D.Kr. 265 ($ 47.00)
Section B only D.Kr. 1000 ($176.00)

Complete volumes, reduced price for
individuals
Sections A & B
(combined
subscription) D.Kr. 480 ($ 85.00)
Section A only D.Kr. 110 ($ 19.50)
Section B only D.Kr. 420 ($ 74.00)

All subscribers in the U.S.A. and Canada
should add to the above subscription
rates the charges for airfreighting stated
in the preceding section.

The reduced rate subscriptions are or-
dinarily only available to members of
recognized scientific societies, who
must give a written undertaking accom-
panying their subscription application
that the journal is for their personal use
and will not be made available to lib-
raries, institutions, etc.

Journal of Applied
Crystallography

The prices in Danish kroner for Journal
of Applied Crystallography remain un-
altered. These prices and the U.S. dollar equivalents for Volume 7 (1974) are as follows:

Complete volumes, regular price per
volume D.Kr. 300 ($53.00)
Complete volumes, reduced price for in-
dividuals D.Kr. 150 ($25.50)

For a limited period only and whilst
stocks last, Volumes 1–23 (1948–1967)
of Acta Crystallographica and Volumes
1–6 (1968–1973) of the Journal of Ap-
plied Crystallography are being offered
at special reduced prices. These prices
do not include postage.

Acta Crystallographica
Complete set of Volumes 1–23
D.Kr. 1500 ($265.00)
Complete volumes, price per volume
D.Kr. 70 ($ 12.50)

Journal of Applied Crystallography
Complete set of Volumes 1–6
D.Kr. 300 ($ 53.00)

The set of the first six volumes of Journal
of Applied Crystallography is being of-
f ered at this special price to encourage
new subscribers to this journal. No
further reduction is available should a
subscriber wish to purchase only some
of the volumes in this set.

Book Review

Works intended for notice in this column
should be sent direct to the Book-Review Editor (M. M.
Woolfson, Physics Department, University
of York, Heslington, York Y01 5DD, England). As far as practicable books will be reviewed in
country different from that of publication.

Gemstones. By G. F. HERTBERT
SMITH. Pp.xii + 580. Figs. 135,
colour plates 12, black-and-
white plates 23. London: Chap-
man and Hall, 1972. Price
£ 7.50.

Dr G. F. Herbert Smith's Gemstones has
been going strong now, as one of the
classic British works on the subject,
since 1912, and this latest edition has
been revised and enlarged again by
Professor F. Coles Phillips. The revisions
