### Report of the Eleventh General Assembly and International Congress of Crystallography

The Report of the Eleventh General

Assembly and Congress has been published in *Acta Crystallographica*, Section A [*Acta Cryst.* (1979). **A35**, 1021–1067]. It includes the minutes of the General Assembly; the triennial reports of the Executive Committee, the Commissions and the Union representatives on bodies not belonging to the Union; the Statutes and By-Laws as amended by the Eleventh General Assembly; membership of the Executive Committee and the Commissions; names and addresses of Union representatives on other bodies; a list of Adhering Bodies and the membership of National Committees for Crystallography, with names and addresses of the Secretaries. Reprints of the report will be sent to Secretaries of National Committees.

### Report of the Executive Committee for 1978

The Report of the Executive Committee for 1978 has been published in *Acta Crystallographica*, Section A [*Acta Cryst.* (1979). **A35**, 1068–1083]. It reports on the meetings and publications of the Union, the work of its Commissions, and the work of bodies not belonging to the Union on which the Union is represented.

### Commission on Journals Chemical nomenclature

The attention of authors submitting papers to *Acta Crystallographica* and *Journal of Applied Crystallography* is directed to the requirement that chemical nomenclature should be consistent, clear and unambiguous and conform to the rules of nomenclature established by the International Union of Pure and Applied Chemistry, the International Union of Biochemistry and other appropriate bodies. For IUPAC rules, see *Nomenclature of Inorganic Chemistry, Definitive Rules*, 1970 (1971), London: Butterworths; *Nomenclature of Organic Chemistry, Sections A, B, C, D, E, F & H*, revised ed. (1979), Oxford: Pergamon Press. Additional important references include: inorganic boron compounds, *IUPAC Inf. Bull.* (1970), No. 8; carbohydrates, *IUPAC Inf. Bull.* (1970), No. 7; steroids, *Pure Appl. Chem.* (1972), **31**, Nos. 1–2; *Biochemical Nomenclature and Related Documents* (1978), London: Biochemical Society. An index to all IUPAC nomenclature publications is available from the IUPAC Secretariat,

Bank Court Chambers, 2–3 Pound Way, Cowley Centre, Oxford OX4 3YF, England. French versions of IUPAC rules for nomenclature of inorganic and organic compounds are available from Le Secrétariat, Société Chimique de France, 250 rue Saint-Jacques, Paris V, France; German versions from Verlag Chemie GmbH, Postfach 1260/1280, D-6940 Weinheim, Federal Republic of Germany; a Russian version of the organic rules only from PIK VINITI, Oktyabrsky prospekt 403, Lyubertsy 140010, Moscovskaya oblast' 10, USSR.

Rigid and consistent conformance to these rules throughout a manuscript is not required but the approved names of compounds should be given at least once. In particular, all papers in *Acta Crystallographica*, Section B, reporting crystal structure determinations and all Crystal Data in *Journal of Applied Crystallography* should include the approved name of the compound(s) in the title of the paper or in a footnote to the title. Any paper in *Acta Crystallographica*, Section A, or in *Journal of Applied Crystallography* dealing with the crystal physics or the properties of a particular material should also include the approved name of the compound concerned.

Advice on chemical nomenclature may be obtained from Dr K. L. Loening, Director of Nomenclature, Chemical Abstracts Service, PO Box 3012, Columbus, Ohio 43210, USA; and on the particular nomenclature of inorganic compounds from Professor Y. Jeannin, Laboratoire de Chimie des Métaux de Transition, Université Pierre et Marie Curie, 4 place Jussieu, 75230 Paris CEDEX 05, France. Enquiries may also be addressed to Dr J. E. Derry, International Union of Crystallography, 5 Abbey Square, Chester Square, Chester CH1 2HU, England.
