Calculation of total scattering from crystalline structural model based on experimental optics parameters

Satoshi Hiroi, Koji Ohara, Satoru Ohuchi, Yukihiro Umetani, Takashi Kozaki, Emiko Igaki and Osami Sakata
S1. Optical details of BL04B2 beamline

Here we define the variables related to the optical information in BL04B2 on figures. Figure S1 shows the optical, experimental hatches and the front-end-shield of BL04B2 beamline.

Figure S1 A schematic view of optical and experimental hatch of BL04B2 including detector positions of the diffractometer.
