Support by National Science Centre Poland under grant No. UMO-2023/51/B/ST5/02843 for the work described in the article by Grabowski *et al.* [(2025), *IUCrJ*, **12**, 403–416] is acknowledged.

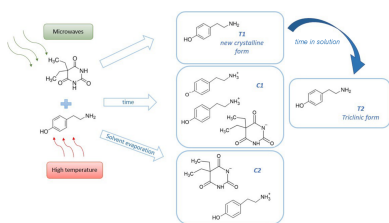

Grant No. UMO-2023/51/B/ST5/02843 from National Science Centre Poland was not acknowledged in the article by Grabowski *et al.* (2025). The full funding statement is given below.

## Funding information

This research was supported by National Science Centre Poland (grant Nos. UMO-2018/30/E/ST5/00638 and UMO-2023/51/B/ST5/02843). This research was supported in part by PL-Grid infrastructure (grant No. PLG/2024/016987 and grant No. PLG/2024/017056). The study was carried out using a research infrastructure funded by the European Union in the framework of the Smart Growth Operational Programme, Measure 4.2, Ministry of Education and Science (grant No. POIR.04.02.00-00-D001/20), 'ATOMIN 2.0: Center for materials research on the ATOMIC scale for the INnovative economy'.
