Bimonthly

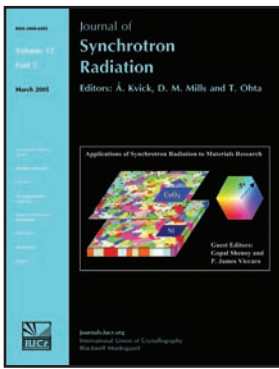

serving synchrotron radiation scientists

Journal of Synchrotron Radiation

Editors: Å. Kvick, D. M. Mills and T. Ohta

online access to all articles from 1994 onwards

Main editors

Åke Kvik
Dennis Mills
Toshiaki Ohta

ESRF, Grenoble, France
APS, Argonne, IL, USA
U. Tokyo, Japan

Synchrotron radiation research is rapidly expanding with many new sources of radiation being created globally. Synchrotron radiation plays a leading role in pure science and in emerging technologies. The *Journal of Synchrotron Radiation* provides comprehensive coverage of the entire field of synchrotron radiation research including

instrumentation, theory, computing and scientific applications in areas such as biology, nanoscience and materials science. Rapid publication ensures an up-to-date information resource for scientists and engineers in the field.

Examples of high-impact papers

K. Mori, N. Sekine, H. Sato, D. Shima, H. Shiwaku, K. Hyodo, H. Sugiyama, M. Ando, K. Ohashi, M. Koyama and Y. Nakajima (2002). Application of synchrotron X-ray imaging to phase objects in orthopedics. *J. Synchrotron Rad.* **9**, 143–147.

B. Lengeler, C. Schroer, J. Tümmler, B. Benner, M. Richwin, A. Snigirev, I. Snigireva and M. Drakopoulos (1999). Imaging by parabolic refractive lenses in the hard X-ray range. *J. Synchrotron Rad.* **6**, 1153–1167.

H. Kitamura (1998). Present status of SPring-8 insertion devices. *J. Synchrotron Rad.* **5**, 184–188.

R. Bouchard, D. Hupfeld, T. Lippmann, J. Neufeind, H.-B. Neumann, H. F. Poulsen, U. Rütt, T. Schmidt, J. R. Schneider, J. Süssenbach and M. von Zimmermann (1998). A triple-crystal diffractometer for high-energy synchrotron radiation at the HASYLAB high-field wiggler beamline BW5. *J. Synchrotron Rad.* **5**, 90–101.

I. Polikarpov, L. A. Perles, R. T. de Oliveira, G. Oliva, E. E. Castellano, R. C. Garratt and A. Craievich (1998). Set-up and experimental parameters of the protein crystallography beamline at the Brazilian National Synchrotron Laboratory. *J. Synchrotron Rad.* **5**, 72–76.

R. J. Cernik, W. Clegg, C. R. A. Catlow, G. Bushnell-Wye, J. V. Flaherty, G. N. Greaves, I. Burrows, D. J. Taylor, S. J. Teat and M. Hamichi (1997). A new high-flux chemical and materials crystallography station at the SRS Daresbury. 1. Design, construction and test results. *J. Synchrotron Rad.* **4**, 279–286.

N. Binsted and S. S. Hasnain (1996). State-of-the-art analysis of whole X-ray absorption spectra. *J. Synchrotron Rad.* **3**, 185–196.

R. Fourme, A. Ducruix, M. Ries-Kautt and B. Capelle (1995). The perfection of protein crystals probed by direct recording of Bragg reflection profiles with a quasi-planar X-ray wave. *J. Synchrotron Rad.* **2**, 136–142.

The *Journal of Synchrotron Radiation* is published bimonthly by the International Union of Crystallography (IUCr), a not-for-profit scientific union for the advancement, promotion and sustenance of quality in crystallography, in association with Blackwell Munksgaard. Further information about the *Journal of Synchrotron Radiation* and the other IUCr journals can be found at journals.iucr.org or by contacting the IUCr Promotions Officer, Andrea Sharpe, at as@iucr.org.

Recent special issues and conference proceedings

Softer X-rays in Structural Studies, July 2005

Third International Workshop on X-ray Damage to Biological Crystalline Samples, May 2005

Applications of Synchrotron Radiation to Materials Research, March 2005

Second BioXAS Study Weekend on Genomics and BioXAS, January 2005

International Symposium on Diffraction Structural Biology, January 2004

XIV Russian Synchrotron Radiation Conference, September 2003

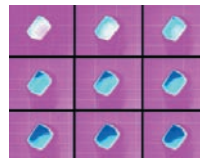

Fifth Harima International Forum on New Aspects of X-ray Imaging Technology with Synchrotron Radiation – Present Status and Future Possibilities, May 2002

Types of articles

- lead articles
- topical reviews
- research papers
- short communications
- letters to the editor
- meeting reports
- current events
- meetings and courses
- book reviews

Benefits to authors

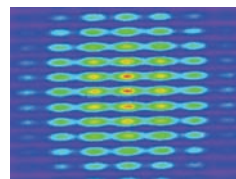

- open access option available for increased visibility
- online submission
- high-quality refereeing
- fast publication
- high citation ranking
- free colour
- free electronic reprints
- templates available in L^AT_EX and Microsoft Word

NEW! Synchrotron radiation facility information pages

Synchrotron Radiation Online offers access back to the first issue of the *Journal of Synchrotron Radiation* in 1994. **Synchrotron Radiation Online** also offers

- full text, article title, keyword, abstract/synopsis and author searching; links to *World Directory of Crystallographers* entries
- articles available in HTML and PDF formats
- easy navigation within each article
- citation links to IUCr journals; ChemPort, CrossRef and Medline linking
- links to the Cambridge Structural Database, Protein Data Bank and Nucleic Acid Database
- immediate access to supplementary data
- e-mail alerting service
- forthcoming article previews

Special discounted packages

The *Journal of Synchrotron Radiation* (JSR) can be subscribed to individually or in discounted packages with the IUCr's other journals (journals.iucr.org):

Acta Crystallographica Section A: Foundations of Crystallography
Acta Crystallographica Section B: Structural Science
Acta Crystallographica Section C: Crystal Structure Communications
Acta Crystallographica Section D: Biological Crystallography
Acta Crystallographica Section E: Structure Reports Online
Acta Crystallographica Section F: Structural Biology and Crystallization Communications
Journal of Applied Crystallography (JAC)

2006 order form

Subscribers to the print edition of any IUCr journal are entitled to access the corresponding online edition free of charge (print + e). Electronic-only subscriptions (e-only) are available at 95% of the cost of a print subscription.

The full subscription policy for **Crystallography Journals Online**, including information about multisite and consortial access, is available at journals.iucr.org. Any queries should be directed to subscriptions@iucr.org. Prices are in GBP (USD in parentheses) and include postage where appropriate; subscriptions in North, Central and South America and the Caribbean must be paid in USD, all other areas in GBP.

	personal		institutional	
	print + e	e-only	print + e	e-only
JSR (Vol. 13, 6 issues, ISSN: 0909-0495)	<input type="checkbox"/> 170 (286)	<input type="checkbox"/> 162 (271)	<input type="checkbox"/> 572 (961)	<input type="checkbox"/> 543 (913)
JSR + JAC	<input type="checkbox"/> 267 (449)	<input type="checkbox"/> 254 (426)	<input type="checkbox"/> 917 (1540)	<input type="checkbox"/> 871 (1463)
Full package (all 8 IUCr journals)	<input type="checkbox"/> 911 (1529)	<input type="checkbox"/> 822 (1380)	<input type="checkbox"/> 3184 (5349)	<input type="checkbox"/> 2866 (4814)

E-only subscriptions in the EU are subject to VAT at 17.5% and print + e are subject to VAT at 5%. Institutions should provide a VAT registration number. For subscriptions in Canada, 7% GST will be added to the above prices. Personal subscriptions are only available to individual scientists for their own use and must be paid by personal cheque or credit card.

To subscribe, please tick the journal(s) required above, complete the payment details below and send the form to the IUCr Promotions Office, PO Box 951, Chester CH2 2WA, UK (fax: +44 1244 373675 or 314888). Please ensure your e-mail address is included to allow prompt access to the online journals.

- I enclose a cheque for _____ made payable to Blackwell Publishing Ltd
- Please bill me for _____
